Transdev awarded operating contract for car park shuttle and airside passenger shuttle service at Roissy Charles-de-Gaulle

The Transdev Group's Ile-de-France Division has announced it has won a contract to operate car park shuttle buses and airside passenger shuttle buses at Roissy Charles-de-Gaulle awarded by Aéroports de Paris.

The operating contract which runs for a 5-year period from 1 July, covers transporting airline passengers and crew from the Roissy platform 24 hours a day. Under this contract, around 15 vehicles will be brought into circulation and the service will be provided by 65 staff. Total turnover will be just over €30 million.

This new market strengthens Transdev's presence in the airport sector, as the Group already operates around 100 shuttles for Air France between the Roissy Charles-de-Gaulle air terminals and aircraft, transporting close on a million passengers a month. The service employs 300 staff.

As the 2nd largest French operator of public passenger transport in the metropolitan area of Paris, this new service means the Transdev Group can consolidate its position on the airport market in Ile-de-France. François-Xavier Perin, Managing Director, Transdev Group: *"This contract illustrates the trust Aéroports de Paris has in the expertise of the Group, which has already been proven through over 10 years serving Air France."*
